# Family Centres

Family Centres promote healthy child development. They are places where families play, learn and grow together.

Strong relationships between parents and their children support healthy development. Connections with other families strengthen our communities!

Family Centres welcome families from around the world! They offer the opportunity to share and learn about the languages and cultures of neighbours in our communities.

Family Centres plan their programming in response to the interests of the families in their community; children have fun learning through exploration and play while parents connect, share and learn from one another.

Some of the Programs offered in LRSD's Family Centres are:

- Stay and Play
- Rock and Read
- Alphabet Soup in Motion
- Wiggle Giggle and Munch
- Positive Discipline in Everyday Parenting
- Music and Movement
- Community Kitchen
- Handle with Care
- Programming that shares Indigenous culture

Family Centres provide support for parents raising young children. Parents learn about healthy eating and positive parenting through programming and talking with other parents. Early learning, literacy development and the opportunity to enjoy physical activities with their children are all a part of Family Centre programming.

Family Centres in LRSD are Supported by Healthy Child Manitoba – putting children and families first.
