## SCHOOL PRIORITIES

### 1 Comprehensive School Health

Students will become aware of how they can become positive, healthy, active citizens.

### 2 Strength Based Practices

A strength-based perspective is a belief system with collaborative processes and practices that empower individuals by building upon their potential and recognizing possibilities throughout a supportive school community.

### 3 Social Ecological System

Students will increasingly display the values and attitudes and sustainable behaviours that indicate a commitment toward sustainable living practices.

Proactively differentiate instructional or learning activities to incorporate students' interests and student learning styles/needs.

### 4 Three Tiered Planning
