I Am 1

I'm a curious, observant, energetic, determined, focused and sometimes stubborn scientist.

I'm a natural born learning all the time explorer of stuff, an insatiable consumer of sensory experiences.

I'm highly evolved and very capable future adult eager to engage the world.

(I'm not a little baby)

I am 2

It's not easy. I'm realizing the world no longer revolves around me like it did when I was younger.

Still, life's not so terrible. It's just a bit complex and overwhelming at times. I'm trying to understand the world and my curiosity and drive sometimes look like trouble. I'm a force to be reckoned with, a busy brain on the go.

(Don't underestimate me)

I am 3

I am not built to sit still, keep my hands to myself, take turns, be patient, stand in line, or keep quiet.

I need motion, I need novelty, I need adventure, and I need to engage the world with my whole body.

Let me Play

(Trust me I'm learning)

I am 4

I'm a smooth talking agile, and observant seeker of adventure.

I'm a kind of know it all as in I want to know it all.

I have more questions in me then you have answers.

I'm perceptive enough to sense this can frustrate you, but please don't discount me inquisitiveness.

(Challenge Me)

I am 5

I am a risk taker and mess maker. I'm a confident doer of exciting things. I'm not built for desk sitting. My busy brain craves action and novelty.

I'm not a grown up as some people think- I still need to play, move, and explore.

(Don't rush my childhood)
