## FREE PLAY

Children can explore  
the room and choose  
what they would like  
to play with. Play is  
important work  
for children!

## LEARNING THROUGH PLAY

Play nurtures  
development and  
fulfills a child's  
inborn need to learn.

## CIRCLE TIME & SONGS

Helps children  
build listening skills,  
learn about themselves,  
others and the world  
through stories, songs,  
dances and more.

## SNACK TIME

Children learn  
important life skills  
like sitting together,  
trying new foods and  
following routines.

## CLEAN UP

We value and respect  
our toys and materials.  
Cleaning up helps  
build responsibility,  
organization and  
pride in our space.
