Positive Discipline in Everyday Parenting

Laura and I will be offering this program from January 12th-March 9th from 530-730pm, with child care provided if needed. We are taking registrations now for families to join. Snacks will be provided. Please let either myself or Laura know if you would like to take this class.

Every child deserves respect and safety. Every caregiver deserves support and affirmation.
At Positive Discipline in Everyday Life (PDEL), we make this a priority through our unique programs, training and partnerships.
We help parents and caregivers to foster healthy development through non-violent problem-solving and strong relationships.
