

Victor Mager Family Centre

May Updates

What we've been up to in the Family Centre!

In April we enjoyed spring activities including a nature exploration table, flower collages and the creation of a collaborative spring bulletin board! We also made cheery suncatchers for our "make and take" craft!

To celebrate Earth Day, we painted a recycling wall, did some messy ocean sensory play and even planted some vegetables! Come join us in May as the weather gets nicer and we go outside for lots of land-based play!

Did You Know?

It is best to let children complete crafts and activities in the way they want! Arts and crafts are not about the finished product, instead they are about the process! Doing crafts for children does not help them. Kids learn many important developmental skills, emotional regulation abilities and problem-solving skills through open-ended, child led art activities. Let them create and express themselves!

👉 Ready for School 👈

Is your child starting Kindergarten at Victor Mager in September?

The Family Centre is running a Ready for School program to help kids build skills and independence in preparation for starting school! Please take a look at the attached poster and talk to Cody and Shera about registration!
