

Students will have an amazing opportunity to explore interests and pursue passions, learning and developing their skills all while having fun. Students from different grades

Student Name: _____
Teacher Name: _____

(4-6) from both the English and the French Immersion programs will come together, based on their interests, to do Coyote Explorations. Students from Grades 4-6 will select from the list of fun exploration topics listed below. Students will be meeting with the same exploration group three different times and working and learning together with the same teacher and group of students in the topic selected. **The Coyote Explorations will take place on the following days: May 28th, June 4th, and June 11th.** We ask you to read **ALL** of the options below. After you have read them all, you are asked to select your top five favorite topics. You will NOT be exploring all five different topics; you will be placed in ONE of your favorite topics and will stay in that same session for the three weeks. On the sheet below, please indicate a "1" (in the box on the left of the topic description) to show the session that you want the most, a "2" for the session you want the "second-most", a "3" for the third option, a "4" for the fourth option, and a "5" for the fifth option. We will do our best to place you in your first choice but if it is full, we will try to place you in your second choice, etc. A reminder to pick your options based on your interests, not your friends' interests!

1. **Just Dance with Mme Kaylena and Mme Céline**

Do you like to dance? Well, put on your dancing shoes and come dance along to some catchy tunes, meet other people who love to dance and move your body along to the Just Dance videos!

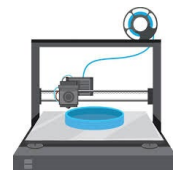

2. **Friendship bracelet making with Mme Chloe**

You will get to make friendship bracelets using strings and knots to share with your friends or to wear yourself! You will get to choose from many cool designs and colours to make your bracelets unique!

3. **3D Printing and Tinkercad Software with M. Colin**

Are you ready to dive into the world of 3D printing and bring your wildest imaginations to life? You will learn how to use Tinkercad, which is a program that allows you to design anything you want which can then be printed on our 3D printer. At the end of the session, you will design your own nametag that will then be printed for you!

4. **Racket Sports (Badminton, Pickleball and Table Tennis) with your Phys. Ed. teachers**

Let's learn more about racket sports and have a fun time playing different games. This exploration will SERVE you well and is sure to be a HIT!

5. **Food Science with Mme Haley**

Come and discover the science behind food chemistry with a variety of hands-on and tasty experiments! Witness the magic unfold as you watch the transformation of simple ingredients into delicious creations, guided by the principles of food science.

6. **Digital Scrapbook Making / How to use Canva with Mme Anna**

Ready to dive into the wonderful world of Canva? Learn all about making awesome digital scrapbooks that are perfect for kids like you. Together, we'll explore fun tools, share ideas, and turn your memories into colorful creations that you'll treasure forever. So, are you ready to let your creativity shine? Let's get started on our scrapbooking adventure together!

7. **Cribbage with Mme Philippot and Mrs. Sobkowich**

Cribbage is a fun card game that uses your mental math skills and some luck! Come learn to play while also discovering some new crib vocabulary (what is a skunk in cribbage?). All are welcome to come and enjoy a little friendly competition, whether you are a beginner or someone who already knows how to play.

8. **Welcome to Hogwarts: Harry Potter Theme Activities with Mrs. Farrell**

Wizards, witches, and muggles wanted for this Harry Potter themed exploration. We have many magical activities planned including a Sorting Hat ceremony, wand making, exploring spells, potions, and more.

9. **Baking / Cooking with M. Jonathan**

Do you enjoy baking and cooking? Join us in learning a variety of cooking techniques while preparing a variety of dishes.

10. **Cards (games, tricks, towers) with Mme Mangin and Mme Martin**

Are you interested in learning how to build card towers or learning how to perform card tricks? Maybe you just want to learn a new card game to play with your friends! We'll cover it all during this exploration!

11. **Jigsaw Puzzle Challenge with Mme Percy**

Do you love jigsaw puzzles? Join us in this challenge to complete a 500-piece puzzle as a team in 45 min! It will be a race to the finish!

12. **Magic Tricks with Mrs. Ojah**

Have you ever wanted to amaze your friends and family by performing tricks that seem impossible? Join me to learn exciting magic tricks using everyday items you have at home. At each session, you will learn and practice 2 tricks and take the props with you to use right away.
