

😊 **Today is a good day to speak French !**

 **Good news for Parents!**

The French for Parents program

Is your child **learning French at school**? Would you like to **support your child's studies and speak some French in your family**, but your knowledge of French is **too limited**?

The French for Parents program offers courses **specifically developed for parents**. We focus on the basics, like helping with homework or doing family activities – like your goodnight routine – in French!

Upon completion of the session 1: LET'S GET ACQUAINTED!, you should be able to:

- Introducing yourself and someone else
- Give personal information
- Fill out a form
- Talk about your family
- Express someone's likes and dislikes (and food allergies)
- Talk about hobbies and passions
- Describe someone (physically and character)
- Explain where you live and come from (city or country)

Prerequisite: placement test

Material used: Booklet will be provided on the first class

How to register? Just click on the following course:

[French for parents](#) [Tue, 6:00-8:00pm](#) [Apr 25- Jun 20](#)

Thank you!

Best regards,
